

FAAIZ MUZZAMMIL

SOFTWARE DEVELOPER & DIGITAL MARKETER

Introduction

- A **Full-Stack Developer**, passionate about building scalable applications, problem-solving, and integrating AI-driven solutions, I also have vast experience in **Digital Marketing** so I know how to build and sell it. Looking forward to offer my services to the organization and to become a pivotal member of the team.

Experience

Digital Marketer – MarketVerse AI

January 2025 — Present

- Managing digital marketing for AI-based fintech platform located in **Austin, USA**, for increasing user signups by 45% and engagement by 30% through targeted campaigns.
- Creating and posting social media content that has increased user engagement.
- Running targeted campaigns to grow user retention.

Software Developer Intern – Datatics AI

July 2025 — August 2025

- Developed many customized AI agent solutions for various business use cases.
- Built competitive analysis tools that tracks competitors and provides market insights.

Legal Consultancy

Having vast experience in providing legal consultancy for company, firm, NGO registration to more than 15+ companies with the concerned authorities like SECP, FBR, EAD, etc and different types of certifications.

Projects

- Created numerous projects like, AI based snake game, Chat App, Brick Breaker Game with Modern UI, Music Player App, AI Based Assignment Solver etc.
- I have also built AI-based applications like basic recommendation system that fetches previously visited hike trails and suggest the right trails for you.
